Rose Marie:

Can you please check to see if we can arrive at 11:30 to setup. We realize this is a Senior Center and lunch is probably served there, so we don't want to impose on any activity taking place in advance of our 2:00 pm meeting. I called Mr. DiMarzo and left him a voicemail also. In the meantime, we will bring our own screen just to be covered. All A/V equipment and setup will be handled by us also. If you can let someone know of our plans, I would appreciate it.

Hi Wanda...

I don't think so but who is Johnny and Carmine at the Senior Center?? Don't know who they are.

Good morning Rose Marie:

Yes, we're on schedule to have the meeting. I just have one question, do you know if they have a screen at the center where we can project a presentation? If you don't know the answer, I will call Johnny or Carmine at the Senior Center.

Rose Marie:

This email serves to confirm that EPA has clearance to hold a meeting on Monday June 23, 2014 from 2:00 pm to 4:30 pm at the Belleville Senior Citizens Recreation Center located at 125 Franklin Avenue at which we will explain our Proposed Plan and all of the alternatives presented in the Focused Feasibility Study to the general public. The meeting will consist of a presentation to be made by the EPA site team and then a Q&A session at which time we will receive comment(s) from the public on our preferred remedy. There will be a stenographer at the meeting given we need to have a transcript of the proceedings. EPA will bring A/V equipment to the locale and we will setup the space to accommodate our needs. Please confirm receipt of this email and that we have the “GO” to publicize this meeting given we must put out a press advisory and place a newspaper ad announcing it.

Thank you for all of your assistance!
